

Pre-STAT 496 survey:

How many 300- and 400-level statistics courses have you taken before this term?

How many data-analytic projects have you completed before this term?

On a scale from 1 to 5, 1= not confident at all, 5 = very confident:

How confident are you in your data cleaning skills (recoding and reorganizing data, dealing with missing values, etc.)?

How confident are you in your skills in analyzing data?

How confident are you in your skills in creating effective graphs for visualizing data?

How confident are you in discussing ethical guidelines in applied statistics?

How confident are you in leading meetings in a formal setting?

How confident are you in your scientific writing skills?

How confident are you in writing method and result sections for scientific publications?
